Shaina Pal

has successfully completed the online, non-credit Professional Certificate

IBM IT Scrum Master

Completers of this Professional Certificate have showcased their mastery for the Scrum Master profession and Agile concepts, tools, practices, skills, and terminology. They are fluent in IT fundamentals, software engineering principles, the Software Development Lifecycle (SDLC), and know about popular software development tools, technologies, languages, and stacks. The holder is also well versed in DevOps's essential characteristics, as well as incorporating the Agile concepts of adaptive planning, iterative development, and continuous improvement. Throughout the program, holders have demonstrated their knowledge and skills in Agile project management and Scrum and applied them to real-life scenarios. Additionally, the holder successfully passed a mock CSM certification exam.
